# **Education**

# Bachelor of Science | University of California, Davis | Expected Graduation: Jun 2024

- Major: Genetics and Genomics
- Minor: Bioinformatics, Statistics
- Coursework: Linear Algebra, Probability, Regression Analysis, Bioinformatics, Data Structures, Comparative Genomics, Data Science
- GPA: 3.7

# Skills & Abilities

### **Programming:**

- Programming Language: Python (NumPy, Pandas), R, MATLAB, YASARA, Perl, BLAST
- Command Line: Windows, Linux
- Version Control: Git
- Proficient in Microsoft Office

### **Laboratory:**

- General Laboratory
- Bacteriology
- Gel Electrophoresis
- qPCR

### Language:

• Intermediate Chinese (spoken)

- Grid Preparation (Electron Microscopy)
- Plaque Assay
- Miniprep (DNA extraction)

# **Experience**

### Research Assistant | Topological Molecular Biology Lab | Apr 2022 - Present

- Utilize profile HMMs in predicting SARS-CoV-2 mutation probabilities by adding weights based on country
- Clean and align genomic data sets (Clustal Omega, MUSCLE, MAFFT)
- Grow and collect microbial cultures
- Set up and perform gel electrophoresis
- Prepare frozen samples using GP2 and image using Cryo-EM
- Extract DNA using miniprep or chloroform
- Design primers and perform qPCR to determine the concentration of DNA in viral phage samples

### Research Assistant | Korf Lab | Dec 2022 - Present

- Design python programs that utilize intron position in the prediction of gene enhancement
- Design algorithms to find motifs using discretized position weight matrices

# Accounting Assistant | Quicklinks Advisor 365 | Aug 2020 - Present

- Create and update financial statements
- Reconcile transactions and identify discrepancies

### Clubs

### Social Media Officer | Davis Data Science Club | Sep 2022 - Present

Design posters and flyers to advertise meetings and events
